

Poster Preparation Guidelines for ICFTES-2024

Poster Dimensions

- The maximum space allotted for your poster is 121.9 cm (4 feet) in height x 91.4 cm (3 feet) in width, including the margins.

- While your poster size may be smaller in exceptional cases, we recommend adhering to the prescribed size for uniformity.

Poster Mounting

- Double-sided tapes/clips will be provided for you to mount your poster on the board. A representative image is included on the right for reference.
- In some cases, two (02) posters may be mounted on a board.

Poster Template

- A [POSTER TEMPLATE IS AVAILABLE HERE](#).
- We encourage you to use this template as it will aid the judges in properly evaluating your poster during the competition.
- The color coding in the template indicates the font styles and sizes for different sections. Please ensure to remove the GREEN colored text (only for instructions) from the final version of your poster.
- You are free to change the color of the text or the background of your poster as per your preference.
- For maintaining the integrity of the poster design, the footer section outlined in the poster template (also shown below) must not be removed or modified.

2nd INTERNATIONAL CONFERENCE ON
FLUID, THERMAL, AND ENERGY SYSTEMS
(ICFTES'24)

Poster Printing

- Participants are required to bring their posters in printed form, with dimensions of 121.9 cm (4 feet) in height x 91.4 cm (3 feet) in width.
- Only printed posters of the size specified above will be accepted for presentations. Using multiple papers with color prints instead of a single poster will not be permitted.
- Please note that only one (1) poster is allowed per presentation.

We hope these guidelines will assist you in preparing an effective poster for ICFTES - 2024. Best of luck!
